Summary

To install RIAA on a computer, follow these instructions.

Go to <https://apps.roeing.com/riaa>

Click on the link in Item #3 RIAA Production installer.

This will create a download file on your computer of the installation file.

Double click on this file from the C:\Downloads folder and Run the file.

Install the application in the C:\ root directory instead of in the C:\Programs or C:\Programs (x86) folders to avoid connection issues.

Once the RIAA folder is created on your C:\RIAA drive, open the folder and find the RIAA application item and right click on the item and Send to Desktop as a short cut.
